

# HARDLID.

DURABLE STORAGE. EVERYDAY VERSATILITY.

**4X4 ACCESSORIES**

# ARB HARDLID

## Elevate Your Load with ARB 4x4 Accessories!

The ARB HardLid provides a sleek, rugged and versatile cargo surface, ideal for both temporary and permanent mounting of items - suitable for anything from recovery gear to a rooftop tent.

An engineered and well thought out mounting system and hinge mechanism ensure durability, reliability and ease of use. Should you need to remove the lid, quick removal is possible when needed. Its unique, premium accessory mounting rails are designed for unmatched configurability, and with a dynamic load rating of up to 150kg - it's adventure ready.

## **MOUNTING RAILS**

The premium rail design enhances versatility and integration with ARB's broader range of accessories. A dovetail edge features on the outside of each rail, whilst a t-slot features on the top. Additionally east-west cross-bars or a BASE Rack can be added.

## **READY FOR ANYTHING**

Backed by a robust three-millimetre powder-coated aluminium tread plate and a reinforced frame, the HardLid is designed to handle a high dynamic load of 150 kilograms and a total static mass suitable for rooftop tents. No matter the adventure, the HardLid is ready for anything.

## **INNOVATIVE HINGE SYSTEM**

Engineered with the user in mind, the hinge system is designed to pivot up and away. This clever feature allows larger items like bikes, BASE Racks and rooftop tents to remain in place when opening and closing the lid. This also allows for the optional fitment of factory sportsbars as well.

## **WEATHERPROOF & SECURE**

Shield your valuables with a weatherproof perimeter seal, defending against dust and water. Enjoy peace of mind with the choice of integrated central locking or keyed entry, activating dual lock points for maximum cargo security.

## **EFFORTLESS ACCESS**

Gas-assist struts make both opening and closing of your HardLid effortless. Optional heavy-duty struts are available for permanent load applications.

# COMPATIBLE ACCESSORIES

To complete your HardLid setup, ARB offers an array of BASE Rack dovetail and t-slot accessories to suit any lifestyle. From mounting a shovel holder on the side of the dovetail, tying down your load using our eye-bolt tie downs or securing an ARB rooftop tent on a BASE Rack roof rack, the possibilities are endless.
