

ROOF CONSOLE LOCKER BOX REMOVAL

- To remove Drop Down Locker Box from console body, use a long thin Allen Key or a piece of fencing wire bent to 90 degrees.

- Push tool down between console body and place onto centre of hinge pin. Push centre hinge pin inwards and remove. Push hinge button tabs inwards and remove assembly from console body. Repeat other side.

- To install Locker box, line up holes in Locker Box to holes in console body, insert Hinge Button from the inside into console body, and then push hinge pin firmly into centre of Button. Repeat other side.
